If well completed, describe well.
14. Estimated time required to complete the application of water to beneficial use 5-7 Years
15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary). The proposed use should be temporary in nature, or the requested change should be the result of an unforeseen occurrence: (Failure to provide a detailed description may cause a delay in processing.)
Diversion change is simply to replace an existing well that failed. We will use the existing water line and re-use as much equipment as is practical. Usage will add water to the existing water line and will be used for a continuation of mining to include heap leach and milling operations, dust control resulting from mining operations and domestic use.
16. Miscellaneous remarks:
This is a Temporary Application. Please see the Attachment for further information.

Attachment for application for permission to change the point of diversion for permit #60230

Miscellaneous Remarks Cont.

Hycrofts original production well, permit #60230, collapsed upon attempting to restart earlier this year. Hycroft requests this temporary application for permission to change the point of diversion on an emergency basis to continue mining operations. The permanent application will be filed concurrently with this temporary application. Please also note that Hycroft will abandon the original well as per NAC 534.420 and any other pertinent regulations.
